

DATA SHEET

SCREW TYPE SERIES

DESCRIPTION

The typical Screw Type Rupture Disc Holder (without rupture disc) is a three-piece unit consisting of a base (inlet), holddown ring, and an outlet nut. When assembled, with rupture disc in place, the crown of the disc protrudes into the holddown ring. The base and holddown ring grip the rupture disc while the outlet nut provides the compression necessary to create a metal to metal seal.

Fike's Screw Type Rupture Disc Holders are confined to the 1/2 inch nominal disc size. They are available in four styles: (1) ½30, (2) ½100, (3) S½10, (4) ½SP10. All these styles may be applied to a pressure system, or set-up, through standard NPT connections.

APPROVAL:

ASME
Available for selected configurations.

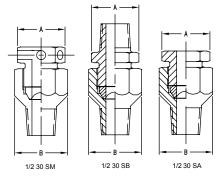

½30 SCREW TYPE HOLDER

The ½30 Screw Type Rupture Disc Holder utilizes the 30° angular seating arrangement and is designed for use with Fike's Conventional Prebulged P and CPV Series Rupture Discs. This style of Screw Type Holder is reusable and limited to a maximum pressure of 3000 PSIG. Standard ½30 Screw Type Holder dimensions and configurations, with assembly letter designations, may be located in the table below.

Assembly No.	Connections		Hex Size Across Flats		Overall
	Inlet	Outlet	Α	В	Height
1/2-30SA-12	1/4 NPT	Free	1-1/8	1-1/4	2-5/16
1/2-30SA-10	1/2 NPT	Free	1-1/8	1-1/4	2-5/16
1/2-30SB-15	1/4 NPT	1/2 NPT	1-1/8	1-1/4	3-1/8
1/2-30SB-10	1/2 NPT	1/2 NPT	1-1/8	1-1/4	3-1/8
1/2-30SM-12	1/4 NPT	Muffled	1-1/8	1-1/4	2-1/2
1/2-30SM-10	1/2 NPT	Muffled	1-1/8	1-1/4	2-1/2

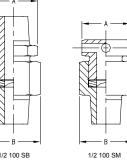

1/2100 SCREW TYPE HOLDER

The ½100 Screw Type Rupture Disc Holder utilizes the flat seating arrangement which is characteristic of, and for use with, Prebulged or Scored Flat Seat Rupture Discs. This style of holder is reusable and has a maximum pressure rating of 10,000 PSIG. Special holders, similar to the ½100 type, can be furnished in other nominal sizes and for pressure up to 100,000 PSIG. Standard ½100 Screw Type Holder dimensions and configurations, with assembly letter designations, are located in the table below.

Standard material of construction for the %100 Rupture Disc Holders is 316 SST. Other materials may be specified.

Assembly No.	Connections		Hex Size Across Flats		Overall
	Inlet	Outlet	Α	В	Height
1/2-100SA-12	1/4 NPT	Free	1-1/8	1-1/4	2-1/8
1/2-100SA-10*	1/2 NPT	Free	1-1/8	1-1/4	2-1/8
1/2-100SB-15	1/4 NPT	1/2 NPT	1-1/8	1-1/4	2-15/16
1/2-100SB-10*	1/2 NPT	1/2 NPT	1-1/8	1-1/4	2-15/16
1/2-100SM-12	1/4 NPT	Muffled	1-1/8	1-1/4	2-5/16
1/2-100SM-10	1/2 NPT	Muffled	1-1/8	1-1/4	2-5/16

^{*} ASME UD available for 1/2 IN P Series Flat Seat or 1/2 IN SCRD Series Flat Seat rupture discs. Consult factory for more information.

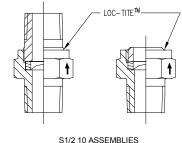

Form No. R.1.38.01-3

S½10 SCREW TYPE HOLDER

The S½10 Screw Type Rupture Disc Holder utilizes the flat seating arrangement and is used with a Fike Prebulged or Scored Flat Seat Rupture Disc. This style of holder is supplied with the rupture disc installed, sealed, and leak-tested at the factory. The S½10 unit has a maximum pressure rating of 1,000 PSIG, and is discarded after bursting of the rupture disc. Standard S½10 Screw Type Rupture Disc Holder dimensions and configurations, with assembly letter designations, are located in the table below.

While the standard material of construction is brass for the S½10 and ½SP10 bodies, other materials may be specified. Rupture Discs for these holders are available in a wide range of materials.

Assembly No.	Connections		Hex Size	Overall
	Inlet	Outlet	Across Flats	Height
S½10*	1/2 NPT	Free	1-1/8	1-7/16
S½10A	1/4 NPT	Free	1-1/8	1-7/16
S½10B	3/8 NPT	Free	1/1/8	1-7/16
S½10C	1/2 NPT	1/2 NPT	1-1/8	2-3/16
S½10D	1/4 NPT	1/2 NPT	1-1/8	2-3/16
S½10E	3/8 NPT	1/2 NPT	1-1/8	2-3/16
S½10F	1/2 NPT	1/4 NPT	1-1/8	2-3/16
S½10G	1/4 NPT	1/4 NPT	1-1/8	2-3/16
S½10H	3/8 NPT	1/4 NPT	1-1/8	2-3/16
S½10K	1/2 NPT	3/8 NPT	1-1/8	2-3/16
S%10L	1/4 NPT	3/8 NPT	1-1/8	2-3/16
S½10M	3/8 NPT	3/8 NPT	1-1/8	2-3/16

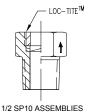

S1/2 10 ASSEMBLIES

½SP10 SCREW TYPE HOLDER

The ½SP10 Screw Type Rupture Disc Holder is manufactured and used in the same manner as the S½10 Holder except that it is smaller and lighter in weight. Standard ½SP10 Holder dimensions and configurations, with assembly letter designations, are located in the table below.

Assembly No.	Connections		Hex Size	Overall
	Inlet	Outlet	Across Flats	Height
½SP10	1/2 NPT	Free	1"	1-5/16
1/2SP10A	1/4 NPT	Free	7/8	1-1/16
1/2SP10B	1/8 NPT	Free	7/8	1-1/16
1/2SP10C	3/8 NPT	Free	7/8	1-5/16

When ordering Screw Type Rupture Disc Holders it is necessary to specify the following: Style of Holder with Assembly Letter Designation (%30SA, %100SM, S%10E, etc.), inlet and outlet pipe size, and material requirements. For S%10 and %SP10 "throw away" units the customer must also specify material and burst pressure for the rupture disc.

^{*} ASME UD available for 1/2 IN P Series Flat Seat or 1/2 IN SCRD Series Flat Seat rupture discs. Consult factory for more information.
