

FIREFIGHTER PORTABLE HANDSET

DESCRIPTION

The Firefighter Portable Handset (P/N 24-134) is designed to be used with the Firefighter Phone Jack (P/N 24-133). It allows the firefighter to move from one location to another and still keep in contact with the Fire Command Center.

These handsets are made from high impact plastic, and are light weight and small, making it easy to carry from one location to another.

FEATURES

- High impact red plastic
- 12 in (30.5 cm) red coil cord expands to 6 ft. (1.8 m)
